How Scoring Works

7 and Up events score, 6 and under events do not

First place = 5, 2nd place = 3, 3rd place = 2, 4th place = 1

Swimmers can swim up to fill a relay, but not down

Fastest swimmers grouped in first heat, based on best seed times

Only the first heat scores

A team can score a maximum of two swimmers per event and can score only one swimmer if only that team has swimmers in the event.

The swim team who accumulates the most points "wins" the meet.
